Bachelor of Science in Business Administration

FINANCIAL MODELING PROJECTS

Apple Inc. Discounted Cash Flow (DCF) Valuation Model

June 2026

- Built a fully integrated five-year DCF valuation model for Apple using analyst consensus revenue forecasts, operating assumptions, and discounted free cash flow analysis.
- Forecasted revenue, EBIT, NOPAT, free cash flow, terminal value, and enterprise value using the Gordon Growth methodology and an 8.0% WACC.
- Developed WACC/terminal growth sensitivity analysis to evaluate valuation outcomes across multiple scenarios and assess downside/upside risk.

Apple Inc. Comparable Company

June 2026

- Performed comparable company valuation using EV/Revenue and EV/EBITDA multiples for Apple, Microsoft, Alphabet, Meta, and Amazon.
- Calculated peer trading multiples, implied enterprise value ranges, and valuation premiums/discounts relative to Apple's market value.
- Produced professional equity research-style valuation summary supporting an investment recommendation based on peer analysis.
